

The K-Love radio station is the only non-ad station available with Christian music in western Colorado that we are able to pick up in the mountain regions. Without their current broadcasting status I would not have this wonderful daily impact. This station means alot to me in traveling as well. To be able to pick it up as I drive across the states when driving home several times a year is such an encouragement and also family "friendly" with no concerns about harsh or unwanted content. Please do not replace this signal with the LPFM status causing Western Colorado and the Mountainous regions to lose this incredible radio station. Thank You, Leann Carrell
